

Family You Choose!

Generations Concierge is a premium personal concierge service tailor-made to assist older adults and their families.

From patient advocacy to move management to museum outings, we assist members of the “Sandwich Generation” by stepping in to help meet the growing needs of their aging parents.

And for the active retiree, we serve as a personal assistant, helping with the “have-to’s” so there’s more time for the “want-to’s.”

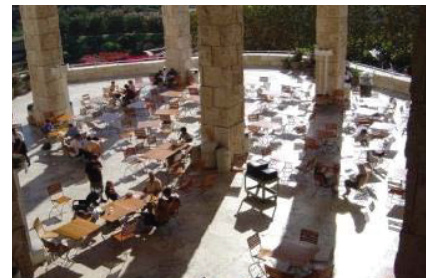

Our mission is to ensure that our clients remain vital, joyful, engaged, and as independent as they want to be, while offering support, assistance, and feedback to the family members who look after them.

Why Generations Concierge?

- We are a team of well-educated professionals uniquely qualified to provide the highest caliber of service.
- Because we think proactively, we are able to anticipate problems before they arise.
- We are able to interface with medical professionals and care facilities — we are your eyes and ears when you can't be there.
- Our services are completely customizable and vary from client to client.
- We require no hourly minimum.
- Our passion is to bring joy to our clients and provide much-needed support for their family members.
